Who We Are...

- Delve is a small, Orlando based company, not a large agency....
- The base of our business is videography and still photography covering travel, nature, sports, education and advertising markets...
- Our network allows us to handle a range from a single photo to a major video project...

Where We've Been

- Most of the United States...
- South Africa...
- Haiti...
- Dominican Republic....
- Spain...
- Throughout the Caribbean...

Florida

- All of the Scenic Highways at least once...
- We know Florida's weather, lighting, seasons...
- We have captured Florida from land, air and both above and beneath the water's surface...

Teamwork

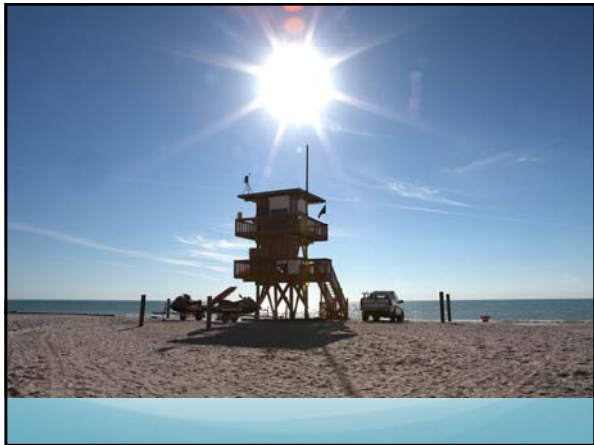

- We listen to our clients and help them illustrate their story...
- When you call Delve Productions, the phone will be answered by either Alex or Steve...
- Everything is done "in-house"...
