Byway Contributions

Volunteer Hour Contribution

Volunteer hours are extremely important to the state economy, and many fantastic programs remain functional thanks to the unpaid hours put in by our volunteers. The Florida Scenic Highway Program is one such program that is thriving due to this contribution. In an effort to recognize these contributions, we are asking that you attempt to quantify the total number of volunteer hours contributed toward your byway during the reporting period. This would include time spent on administrative tasks, meetings, email coordination, event and activity planning, event and activity implementation, time spent on grant application, or any other task completed as part of the functions of the byway organization. Please consider all volunteers and board members, and their contributions. (As of April 2022, Independent Sector determined that the value of each volunteer hour is approximately \$29.95 per federal equivalence). To record hours, byway organizations can use the form provided on the FSHP website.
